There are days, i look at this book with discust.

Why would I create this. Why would I need this?

Am I so entitled? That I want to prove that i belong. That im

not just endlessly roaming the confinds?

But other days, I add a page, of the deep hurtfull passing I

make myself believe.

Every feeling only given a few millimeters of thought. But

hopefully one day a cubic of meaning.

I wish I had

Recognizable faces, recounting epic stories.
Parties held together, by stamina long gone.

Visits that should have been a 15 minutes,
but turned out to be 6 cities.

Events a.p.a.r.t o.f

Fuck, I wish I had friends

Frozen in time,
multiple tables, moments and lives,
shapes ever evolving,

just rearranged.

No matter
how close the bond is,
always miles away
Fuck, I wish I got friends

**I wish I
got**

Present
Dreadless
numb
Nothing
more
Nothing

Gezien de omstandigheden, valt er weinig aan te doen
